

**QUESTION BANK**  
**MODULE NAME: Windows Store Apps Development - II**

**Category - Simple**

**1) Select the correct answer with single option:**

\_\_\_\_\_ certificate is used for high level authentication of user.

- a) Authentication**
- b) Password
- c) Authorization
- d) Security

**2) Select the correct answer with single option:**

Which of the following animations is played by default, when a user clicks or taps on a tile?

- a) Pointer down animation**
- b) Pointer up animation
- c) Pointer theme animation
- d) All of the above

**3) Select the correct answer with single option:**

When we define an `ImageBrush` through code, which of the following `ImageSource` is required?

- a) BitmapImage**
- b) JPEGImage
- c) PNGImage
- d) None of these

**4) Select the correct answer with single option:**

Which of the following enumerations provides a complete list of system provided catalog?

- a) `TemplateList`
- b) `TemplateType`
- c) **`TileTemplateType`**
- d) None of these

**5) Select the correct answer with single option:**

What is the expiration time for the periodic, push, and scheduled notification?

- a) 2 days
- b) **3 days**
- c) 4 days
- d) 7 days

**Category - Average**

**Select the correct answer with single option:**

**1)**

Which of the following is a collection of Sample Data Group objects?

- a) `SampleDataItem`
- b) `SampleDataGroup`
- c) **`SampleDataSource`**
- d) None of the above

**2) Select the correct answers with multiple options:**

Which of the following are Animating Fades effects?

- a) **Fade In**
- b) **Fade out**
- c) **Cross fade**

- d) Fade down

**3) Select the correct answer with single option:**

Which of the following devices can be configured to provide autoplay feature for removable devices?

- a) Memory card
- b) Pen drive
- c) Cd drive
- d) **All of these**

**4) Select the correct answer with single option:**

The error code 410 stands for which of the following?

- a) Not acceptable – Excessive number of notifications in too short time
- b) Not found – Channel URL
- c) Unauthorized, token is expired – Sending a notification with expired token
- d) **Gone – Channel URL expired**

**5) Select the correct answer with single option:**

- a) CreateQuery
- b) **CreateContactQuery**
- c) ContactQuery
- d) None of these

**Category – Difficult****1) Match the key frames properties with their correct descriptions.**

	<b>Key frame property</b>	<b>Description</b>
a)	AutoReverse	1. The timeline repeats until the specified time is reached
b)	BeginTime	2. Frames are repeated in reverse order
c)	FillBehavior	3. Delays at the start of the animation
d)	RepeatBehavior	4. Takes control when the last key frame is reached

- A. a-1, b-2, c-3, d-4  
B. **a-2, b-3, c-4, d-1**  
C. a-3, b-2, c-4, d-1  
D. a-4, b-2, c-3, d-1

**2) Match the Stretch property values with the correct descriptions:**

	<b>Stretch Property Value</b>	<b>Description</b>
a)	None	1. Images are stretched uniformly to fit output dimensions.
b)	Uniform	2. Image does not stretch to fill the output dimensions.
c)	UniformToFill	3. Image is updated to fill the entire output dimensions.
d)	Fill	4. Preserves its original aspect ratio as the image is updated to fill the output dimension.

- A. **a-2, b-1, c-4, d-3**  
B. a-2, b-3, c-4, d-1  
C. a-4, b-2, c-3, d-1  
D. a-1, b-2, c-3, d-4

**3) Select the correct answer with single option:**

Which of the following is correct code to create a button?

- a) `<Grid x:Name="ContentPanel" Margin="12,0,12,0">  
<Button Height="72" Width="160" Content="Click Me" />  
</Grid>`
- b) `x:Name="ContentPanel" Margin="12,0,12,0">  
<Button Height="72" Width="160" Content="Click Me" />`
- c) `<Grid x:Name="ContentPanel" Margin="12,0,12,0">  
<Button Height="160" Content="Click Me" />  
</Grid>`
- d) None of these

**4) Select the correct answer with single option:**

Which of the following is a valid example that instantiates a new MediaCapture Object?

- a) `MediaCapture captureManager = new MediaCapture();  
await captureManager.InitializeAsync();`
- b) `MediaCapture captureManager = new MediaCapture();  
await captureManager.StartPreviewAsync();`
- c) `MediaCapture captureManager = new MediaCapture(false);  
await captureManager.InitializeAsync();`
- d) `MediaCapture captureManager = new MediaCapture(false);  
await captureManager.StartPreviewAsync();`

**4) Select the correct answer with single option:**

Which of the following is the right code segment for sending a toast notification?

- a) `ToastNotification myToast = new ToastNotification(myToastXml);  
ToastNotificationManager.CreateToastNotifier().Show(myToast);`
- b) `ToastNotification myToastXML = new ToastNotification();  
ToastNotificationManager.CreateToastNotifier().Show(myToast);`

## Sample Question Paper

- c) `ToastNotification myToast = new ToastNotification(myToast);`  
`ToastNotificationManager.CreateToastNotifier().Show(myToast);`
- d) None of these
